Things to Know

The Star Key (*)

The star key deletes your current entry. If you happen to make a mistake keying in a code, simply press the star key to delete the entire entry and start over.

The Pound Key (#)

The pound key is good for one thing and one thing only: exiting Programming Mode. Whenever you're in Programming Mode, simply press the pound key to get out.

Master Reset Procedure

If for some reason the Master Code and/or Latch Code is forgotten, a reset procedure is available to remedy the situation.

This procedure can be found on **Page 4** of this guide.

NOTE: Green arrow indicates "good" tone on keypad. Always wait for good tone before moving on.

B   Master Reset Procedure

This procedure is used if the Master Code is unknown, or if the Latch Code is unknown and the unit is in Latch Mode. All other codes will be retained after completing this procedure.

NOTE: If an error is made during these procedures, an "error" tone will sound, and you must start again from the beginning.

Step 1 - Open front panel on unit.

Step 2 - Disconnect power.
Remove one power wire from screw terminal on circuit board by unscrewing and removing.

Step 3 - Press and hold Reset Button; reconnect power; then release Reset Button.
Insert removed power wire back into screw terminal and screw down to secure. Unit will sound one (1) tone. Release Reset Button after you hear tone.

Step 4 - Close front panel on unit.

The Master Code is now reset to default (**1251**).
