The AdvantageDK line of keyless entry offers a selection of post mount models and is available with call button and durable 8 ohm speaker allowing integration with a built-in intercom station.

AdvantageDK models are stand alone and fully programmable from the keypad. Post mount models feature a high grade, stainless steel faceplate and metal keypad and are housed in a heavy metal, powder coated enclosure which will provide years of trouble free entry.

The AdvantageDK line of keyless entry has the right product for many different applications. The ADV-1000 features a lighted panel (post mount only) with 1,000 fully programmable, totally independent codes. It also provides a programmable latch code and sleep code with 3 strikes you're out security, 2 relays and an external event input.
