

1 Sign up for plan and complete activation steps.

Go to summitcontrol.com and follow the steps given in the **Activation Guide**.

2 Install, wire, power on, and test* unit(s). Leave unit(s) powered on for initial setup by Summit Control.

Refer to the **Install Guide**. A professional installer is recommended for installation.

** Only models with keypads can be tested before activation.*

i Same-day activation will occur if we receive your request by **3 pm Central, Mon-Fri**.

3 Once activated, you may go to your admin dashboard to set up your Ascent unit(s).

Available features vary depending on Ascent model.
